GRADUATED COMPRESSION KNEE - HIGH SOCKS FOR WOMEN 140 DEN

DESCRIPTION

NO! COMPRESSION SOCKS ARE NOT FOR OLD WOMEN!

They're for every mom, health freak, fit freak, student, party animal, career woman... The graduated compression knee-high socks meet the needs of every active woman who wants her legs to stay strong, beautiful and healthy in every aspect of her life! The beneficial effect of the 140 DEN massage and compression boosts the blood flow in the body, takes away the weight, swelling and fatigue from the legs and protects against phlebitis and varicose veins while at the same time triggering the breakdown of the fat cells for a truly light feeling from morning to night! Extremely durable, cannot be torn and keep their elasticity even after repeated use!

FIRST IMPRESSION

The first time you put on the graduated compression knee-high socks, it is very likely that it might feel rather odd... Give your body a little time to get used to it and your legs will immediately experience the rejuvenating action of compression.

KNITTING & CARE

The elastic, double knit (75% polyamide, 25% elastane) embraces your legs and belly, leaving them with an exceptionally gentle and warm feeling, ideal for all cold – and not only – days of the year. Its high-tech fibers provide a wonderful, matte finish and cover the imperfections for smooth and well-formed legs and are specially designed so as not to lose their elasticity even after daily use. Last but not least, the reinforced seamless ending holds the socks at their place without letting them slip, for guaranteed comfort at every step!

CARE

We all need to be pampered and cared after... so do our clothes! Treat your socks gently and keep them brand new for a very long time, following two simple tips! If you have time, it is best to wash them by hand with lukewarm water and a mild detergent, rubbing gently. If not, put them in a protective net or pillowcase and set your washing machine in the sensitive clothes programme. Don't forget! Proper care is very important, especially for the clothes we wear and "mistreat" everyday!

WHO NEEDS THEM

Every woman who loves her legs and wants to keep them beautiful and healthy, without any signs of burst veins and vessels! Office workers, flight attendants, mommies grannies, waitresses, salespeople, models, travel guides, nurses... the list goes on and on! Everyone's legs need the same care, whatever your working conditions are, your age or daily routine. Whether you are sitting or be standing for many hours, these socks are essential for the perfect health and beautiful look of your legs.

DID YOU KNOW?

Almost 50% of women worldwide suffer from tired and swollen legs with a severe tendency to venous insufficiency and varicose veins. Therefore, more and more women of all ages make sure that they take care of their legs to stay healthy and beautiful by wearing elastic graduated compression socks.
