

Braces and Supports

WRIST SUPPORT GLOVE

DESCRIPTION

100% GOOD - 100% COOL

Christou 1910 wrist support glove relieves the pain from an aching or injured wrist and offers all the support and stability that is needed, without warming or "crushing" the hand. The sophisticated material airprene allows skin to breathe, while the 2 adjustable Velcro fit as a ... glove in every hand giving 100% freedom of motion! At the same time, bracing the wrist enables the blood flow locally and thus not only relieves the pain but also helps in a speedy recovery. It can be worn comfortably all day long and it is hand washed in cold water.

WHO NEEDS IT

Are you a tech freak? Do you spend all day together with your keyboard, the mouse, your cellphone or tablet? Are you a graphic designer, a web developer, a chef, a Master chef, an amateur or pro basketball player? Do you do any sports (tennis, beach rackets, golf, crossfit, boxing, volleyball) or a manual labor, which stresses or strains your wrist? Don't just wait until you develop a wrist sensitivity or even worse the carpal tunnel syndrome or tendonitis due to overusing this joint? Take precautions and wear the wrist support glove! It's so easy and breezy!

DID YOU KNOW?

The wrist is one of the most important joints of the human body since it controls a number of everyday movements: from grabbing a fork to writing an e-mail. 1 out of 20 adults are having trouble with their wrist. How many of our friends have the carpal tunnel syndrome? Overstressing or improper use of the joint can affect every aspect of our daily life in a way we can't even imagine, leaving us alone with the unpleasant feeling of pain.
